### Why She Joined FCCLA

When I was first exposed to FCCLA my eighth grade year, I knew I wanted to be part of the amazing things that were transpiring in families and communities across the nation. To me, FCCLA is more than just an organization, it is a leadership revolution that is empowering members with the inspiration and skills to become the person that want to be in the future. Coming from a family with a single mom and two sisters, FCCLA has taught me that no matter what type of family you come from, every family is the foundation for your life. Over the three years that I have been involved in FCCLA, I have become a better leader in every aspect of my life and I can't wait for the members of FCCLA to experience the success I did!
