

Byron FCCLA students deliver food to Hope Lodge

By Ryan Radke

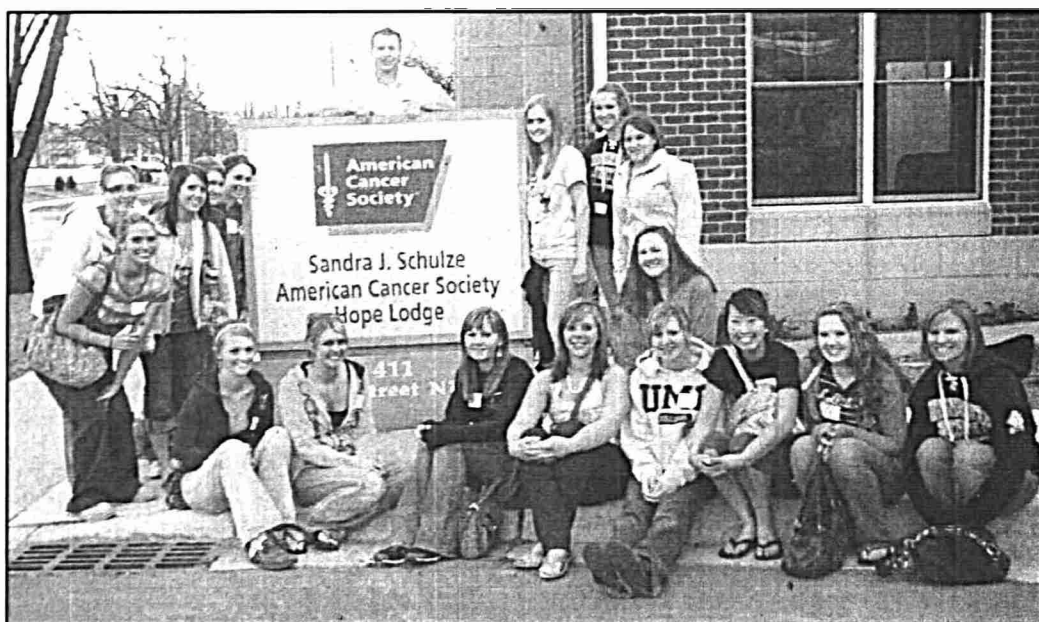

On April 15, the Byron Family, Career, and Community Leaders of America (FCCLA) loaded a bus full of games and Victoria's Italian Food to take to the American Cancer Society's Hope Lodge in Rochester. FCCLA Advisor Ryan Radke said "Every year we take dinner and games to Hope Lodge to help cancer patients staying in Rochester. This year Victoria's helped with the dinner and we had lots of positive comments from the patients that the food was great. The kids

also brought games to play after dinner to help bring some fun to the Hope Lodge. These kids are great with people. The students sat right down and had conversations with strangers in hope of making their time in Rochester as enjoyable as it can be given their situations." The FCCLA group does community service projects throughout the school year. This year the kids have worked with the Salvation Army, the Ronald McDonald House, Hope Lodge, and the Byron Elementary School.
